# PRODUCT DATA SHEET: **VG52 MarkII & VG70 MarkII GYROSTABILIZERS**

| | *VG52 MarkII / VG70 MarkII* |
|---|---|
| Angular Momentum | 52 / 70 kN.m.s |
| Rated Stabilizing Torque | 120 / 145 kN.m |
| Mass | 2575kg (5680lb) / 2850kg (6283lb) |
| Power | 11 – 18 ekW |
| Rated RPM | 4800 |
| Cooling Water | 75 lpm |
| Running Noise | Average 65 dBA |

*Note: Dimensions below exclude clearances. For more information, please ask VEEM Marine for a Product Installation Drawing*

VEEM Marine's small frame size gyrostabilizers offering compact stabilizing power in a single unit installation for vessels ranging from **65' – 120' (approx. 20 – 37m)**

## VEEM MARINE ADVANTAGES INCLUDE

- Up to 95% roll reduction at rest or underway
- Fully maintainable in the vessel (inc. major overhauls)
- Highest stabilizing power per $ or kg/lb available
- Recirculating forced lubrication for long bearing life
- Epoxy coatings and corrosion resistant components
- Low noise emissions
- Telemetry for remote monitoring, diagnostics & updates
- 5-year / 3000hr warranty*

SCAN THE QR CODE TO FIND THE RIGHT VEEM MARINE GYRO FOR YOUR VESSEL

*To qualify, gyros must have a fully operational telemetry connection and an up-to-date VEEM Gyro service record.
